FULLSTACK DEVELOPER

I am a logical coder who enjoys all aspects of fullstack applications, from scripting to structuring to styling. I speak English, Russian, and Kazakh which has helped me see patterns in syntax between coding languages.

TECHNICAL & INTERPERSONAL SKILLS

Languages: JavaScript, JSON, Mongo, EJS, Python, HTML, CSS, SQL, Typescript, DTL
Libraries and Frameworks: React, Express.js, Django, Jquery, Bootstrap, Semantic UI, Bulma
Databases and other: PostgreSQL, MongoDB, RESTful Routing, JSON API, Socket.io
Interpersonal skills: Adaptable, Fast Learner, Punctual, Professional, Decision Maker, Flexible, Team Player

TECHNICAL PROJECTS

KarMa - GitHub | App - Python | Django | PostgreSQL | Materialize-CSS
- Built authentication and authorization with Django-auth
- Added CRUD operations for 'post' and 'profile' models with Django paths and views
- Involved database for models with PostgreSQL

Scap-Forum - GitHub | App - Express | CSS | MongoDB | Bcrypt | Socket.io
- Structured referenced schemas for (category-forum-thread-comments) database collections using JS and MongoDB
- Incorporated authentication feature using Bcrypt and Express-session.
- Integrated live chat feature where users can use a global chat with logged in users, by using Socket.io & JS

Game Info - GitHub | App - JavaScript | HTML | CSS
- Manipulated information displayed using Jquery.
- Used Jquery for on hover effect to display the description of the ability.
- Dropdown menu allows users to select which type of information to display, this is done by using HTML + JS.

VibeVoyage - GitHub-FE | GitHub-BE | App - React | Express | CSS | MongoDB
- Created backend API routes by using Express framework and MongoDB
- Incorporated same-page API CRUD operations in the frontend by using JSX and AJAX
- Structured frontend page flow using React.

EXPERIENCE

Belimed, Field Service Technician   *Chicago, IL, 01/2021 - 01/2022*
- Traveled to hospital sites to complete installation, service, and maintenance of Belimed products.
- Inspected equipment, troubleshooted any issues with precision, left equipment working and customers happy.
- Documented the troubleshooting process and equipment parameters, leaving customers with detailed service reports.
